

Rishikesh Pandharinath Darunte

Chhatrapati Sambhajnagar, Maharashtra

rishikeshdarunte55@gmail.com | +91-9730837025 | LinkedIn | GitHub

Profile

Computer Science graduate and CDAC PGCP-AC professional with hands-on experience building full-stack applications using **Java, React.js, Spring Boot, .NET, and SQL**. Skilled in developing and integrating frontend and backend modules, designing database-driven functionality, and implementing REST API and payment gateway integrations. Strong foundation in **OOP, DBMS, JDBC, Hibernate, Spring MVC**, and modern web technologies, with a track record of problem solving, debugging, and cross-module application integration.

Technical Skills

Programming Languages: Java, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend & Frameworks: Spring Boot, Spring Framework, ASP.NET, .NET, REST APIs, Servlets, JSP

Java Technologies: JDBC, Hibernate, Collections, Exception Handling

Databases: MySQL, Microsoft SQL Server

Tools & Platforms: Git, GitHub, Maven, Docker, Postman

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS, MVC Architecture

Education

Centre for Development of Advanced Computing (CDAC), SMVITA

Feb 2026 – Aug 2026

Post Graduate Certificate in Advanced Computing (PGCP-AC) – 71.88%

Mumbai, Maharashtra

CSMSS Chh. Shahu College of Engineering

2021 – 2025

Bachelor of Technology in Computer Science and Engineering – CGPA: 7.6/10

Chhatrapati Sambhajnagar, Maharashtra

Projects

E-Mart – Full Stack E-Commerce Application

2026

CDAC Project – React.js, Java, Spring Boot, MySQL

- Developed and integrated user-facing modules with **React.js**, including login, registration, user profile, navigation, and related frontend components.
- Built and integrated the **cart, order, and payment workflow**, coordinating data flow between frontend components and backend REST APIs.
- Integrated the **Razorpay payment gateway**, handling frontend-backend coordination for secure, real-time payment processing.
- Contributed to backend module development and database-driven functionality using **Spring Boot and MySQL**.
- Enhanced and migrated existing application modules while ensuring backward compatibility with dependent functionality.

SahyogSetu – NGO Donation Portal

Jan 2025

Major Project – ASP.NET, SQL Server | Team Size: 4

- Built a web-based NGO donation platform using **ASP.NET and SQL Server** with role-based access and functionality.
- Implemented donation management, NGO verification, and administrative approval workflows.
- Developed frontend components and contributed to database design and integration for consistent, reliable data handling.

Certifications & Achievements

- NPTEL – Programming in Java (Silver + Elite)
- Certificate of Appreciation – Devtown
